

Midnight Texas

The best-selling action-Packed vampire stories from charlaine Harris's all coming true on the silver screen. The main role in the highly anticipated series will perform Francois Arnaud. In the modern crazy of the dominance of megacities and the ubiquitous GPS seems not remained completely hidden from civilization places. It is unbelievable but this area there is the town of midnight, Texas. Here along with the usual people live mystical creatures that painfully strong impact on people's lives and not even averse to contact them more deeply. Some of the creatures are angels just waiting for a convenient hour to hear about the human problem and then run to solve it. And the other from the category of witches and wizards are able to completely spoil the life with them is better not to joke. There are vampires who is to be feared. There is a serious problem consisting in the fact that few people are able to distinguish the eyes from the first second and from this place of confusion and various incidents. For example it is likely without memory to fall in love with a sexy hottie that will be a bloodthirsty vampire. The unusual atmosphere of the midnight is broken often visiting guests. Some of them will remain in the hospitable town forever and their will and often without it. And no matter how insistently poke here nose local police find out about cases of disappearance or murders of people they mysteries of the Texas settlements will never be disclosed. They will be revealed only to people with an unusual Outlook on life who loves extreme sports and adventures and not afraid to introduce something new, hitherto not seen. The pilot episode of the project midnight Texas was launched on 13 may 2016, but after that, no new series. Fans of the sci-Fi series filmed in the genre of horror films already know that in early 2017 the film will continue. But will there be a season 2 Back to top © TVdate 2017
